# Authorities of Homeopathy on Parkinson's Disease

Homeopathy has identified the problems of Parkinson's diseases by the name of shaking palsy or paralysis agitans.

Following is a brief and authorized notation of PD remedies, as per classics.

### 1. Dr. Samuel Lilienthal-'Homeopathic Therapeutics'

- *Baryta carbonica* (Useful in senile ages):  
Paralysis following apoplexy in old

people, loss of speech, tongue paralysis; constant inclination to lie down, facial paralysis. Saliva runs out, mouth partially open. Paralysis of upper and lower extremities.

- *Bufo* (Where the history of onanism is present): Paralysis agitans, weak memory weakness in extremities, trembling of limbs, twitching of whole body.
- *Gelsemium sempervirens* (Dumbness, dizziness and drowsiness.): Fractional paralysis of motor nerves, pains in limbs, first stage of locomotor ataxia, muscles weak, ptosis.
- *Hyoscyamus niger*: Paralysis agitans after spasm. Trembling of arms, hands and finger.
- *Mercurius*: Paralysis, commences in upper limbs and goes downwards tremors, twitching of arms. Rheumatic pains, general malaise of mind and body.
- *Physostigma*: Paralysis agitans, rigidity of

muscles, staggering gaits, feeling of weakness.

- *Rhus toxicodendron*: Lameness in extremities and joints.
- *Zincum metallicum*: Great weakness in all limbs, writer's cramps, ptosis, paralysis from; softening of brain.

2. William Boericke's - 'New Manual of Homeopathic Materia Medica with Repertory' Reprint edition 2005.

- *Agaricus muscarius*: Jerking, twitching, trembling and itching.
- *Aurum sulphuratum*; *Parkinson's disease*, constant nodding of the head (Paralysis agitans)
- *Conium maculatum*: Weakness of body and mind, trembling, muscular weakness.
- *Duboisinum*: Trembling, numbness in legs, memory impaired.
- *Hyoscyaminum hydrobromatum*: Paralysis agitans, mania, sleeplessness and nervous exhaustion.
